BLOCK interference and BOOST sat signals

CALL NOW to PRE-ORDER

Get the first 5G blocking tapered C band TI Filters (expected summer 2019)

Coming soon to a dish near you: Tapered C band with 5G interference

Count on DAWNco for the newest FILTER designs and best LNBS. Email DAWNco or visit us on Facebook for more info.

Best C-Band BANDPASS FILTERS

Terrestrial Interference (TI) blocking

Block airport & marine radar and Wimax signals before they enter your LNB. Stop drop-outs and degraded sat reception. Pass desired sat channels

C-BANDPASS-WIMAX4 \$299

Ask us about other sizes 1.5m to 5.0m in motorized or fixed configurations

4.2 meter STATIONARY #D42F48-8PC-6.6 \$4998

High Performance C BAND LNBS

Get improved signal quality readings on digital sat receivers. Best gain compression, phase noise, stability. Prevent signal outages when outdoor temps change.

best C band LNB ±2 KHz stability CLNB20-PL02L \$299

HIGH GAIN DISH

Big dish boosts signal quality on desired channels to fight interference

NARROW BEAM

Focus on 1 satellite with max-rejection of adjacent sats

HIGH GAIN Very precise aiming, perfect-align 8-petal stationary 4.2m dish for best-in-class C band gain of 43.5 dB. Feed, LNB sold sep.

SATfiber LINK Place your dish a long distance away, and convert your LNB signals to light using our fiber transmitter and receiver units. Perfect signal quality, lightning protection, dish placement flexibility. Option: ethernet monitoring of RF & optical power

SATfiber 1LNB-on-1fiber TX+RX set \$1699

SATfiber 6LNB-on-1fiber TX+RX set \$7700

CALL for system design help

SATELLITE RECEIVER-DECODER Tuner and decoder for satellite L band input. Decoder for IP input. MPEG2 & H.264 with 4:2:0 profile, DVBS or DVB-S2, and QPSK or 8PSK. Output baseband A/V & ASI, plus SDI & HD-SDI. Cross convert using a built-in format converter. Embed 8 ch audio & Dolby AC3. Call for INFO

MPEG2/4 Sat Receiver, #D5500-IRD \$1688

3.7 METER STATIONARY

#D37F48-4PC-5.5 \$2299

Most popular size and model. Simple 4 petal design. Reliable C band reception, for an economical price. Mount onto in-ground 5.5" OD pipe. Feed, LNB, wire sold sep.

4.2 METER STATIONARY

#D42F48-8PC-6.6 \$4998

Lowest-cost high-gain stationary dish. For finicky programs that need high-gain & high-rejection of adjacent satellite interference. Feed, LNB, wire sold sep.

3.7 METER MOTORIZED

#D37PMD60-4PC-5.5 \$3899

Standard-gain motorized dish for a good price. Dual axis 2-motor mount for perfect aiming toward any C or Ku satellite. Feed, LNB, wire and controller sold sep.

4.2 METER MOTORIZED

#D42PMD60-8PC-6.6 \$6998

Lowest-cost high-gain motorized dish. Dual axis 2-motor mount for perfect aiming toward any C or Ku satellite. Feed, LNB, wire & controller sold sep.

5.0 METER STATIONARY

#D50FAE-GIB-8PC

\$8998

Option: 4.5 meter

Strong dish to receive important programs from one satellite. Max-gain & max-rejection of adjacent-sat interference. Feed, LNB, wire sold sep.

5.0 METER MOTORIZED

#D50MAE-GIB-8PC

\$14,998

includes controller
Option: 4.5 meter

Highest gain sat antenna with 50 position controller, moves to any C or Ku sat. Strong motorized AZ/EL mount for hi-wind usage. Feed, LNB, wire sold sep.

Big 6.3 or 7.5m FIXED or MOTORIZED, #CH63 or #CH75 CALL for Price

This big strong dish will give you the best gain, for great satellite reception no matter what your location.

D18F-4PC-NPRM

\$944 SMALL DISH

Stationary prime focus 1.8 meter satellite antenna and built-in non-penetrating roof mount tray for quick installation using cement blocks. Ku band gain is 45.6 dB.

REPAIR PARTS-CONTROLLER-MOTOR

Position controller with 50 positions, for fast movement to desired satellite. Motors & linear actuator arms for all dish makes.
