BANDPASS FILTERS to block 5G interference

All silver plated
 Best specs
 USA-built

Best Ku LNB
\$429 ±10 Khz
 KLNb.7-PL10

High Performance SATELLITE LNBs

Boost signal quality on digital sat receivers. Best gain compression, phase noise, stability. Prevent signal outages when outdoor temps change. **CALL for price**

Best C band LNB
 ±5 Khz, CLNB20-PL05

Mini style

Best for Filter & LNB stacking

Top specs

UPGRADE FEEDHORNS ON OLD DISHES

Retrofit kits provide heavy-duty struts and feed tray, to hold new feedhorn. Specify dish **CALL for price**

Tray holds new feed new struts fit old dish

3 BEAM RETROFIT allows 1 dish to receive from 3 satellites
Starting @ \$1599

NEW HEAVY-DUTY STRUTS fits old DH dishes. Strong support for feed, LNBs, Filters **\$225**

MOTORIZED & STATIONARY, C and Ku band

CONTROLLER-MOTOR Position controller with 50 positions, fast movement to desired satellite. Actuator arms for all dish types.
24 inch actuator/motor, ACT2400
36 inch actuator/motor, ACT3600
1-axis controller, CONTROL-1500A
2-axis controller, CONTROL-2000A

CALL for price

3.7 METER STATIONARY

#D37F48-4PC-5.5 **\$2799**

Most popular size and model. Reliable C band reception.
3.7 METER 2-axis MOTORIZED
#D37PMD60-4PC-5.5 **CALL**
Standard-gain motorized dish for a good price. Dual axis 2-motor mount for perfect aiming toward any C or Ku satellite.

4.2 METER STATIONARY

#D42F60-8PC-6.6 **CALL**

Lowest-cost high-gain stationary dish. For finicky programs needing high-gain & high-rejection of adjacent satellite interference.
4.2 METER 2-axis MOTORIZED
#D42PMD60-8PC-6.6 **CALL**
Lowest-cost high-gain motorized C/Ku dish. 2-motors for perfect aim

4.2 METER STATIONARY Massive Mount Super Stable

#D42FAE-GIB-8PC **CALL**
4.5 METER STATIONARY
#D45FAE-GIB-8PC **CALL**
5.0 METER STATIONARY MaxGain
#D50FAE-GIB-8PC **CALL**

Strong dish receives important programs from one satellite. Super high-gain
4.5 METER 2-axis MOTORIZED
#D45MAE-GIB-8PC **CALL for price**
5.0 METER 2-axis MOTORIZED MaxGain
#D50MAE-GIB-8PC **CALL for price**
Super high-gain dish, perfect peak with 2-motor AZ/EL drive. 50 positions.

COVERsat will block snow outages using sensors for pile-ups and keep signals strong. Uses gravity and a steep surface. Tell us your dish size & make.

SAT-METER TO AIM DISH
Boost signal quality many dB using meter to peak. See sat names, **FLEXtest CALL**

HEATsat stops snow outages using sensors for precipitation and temp, to turn on heat elements bonded to dish backside. Say your dish size & make.

BASESTAND MOUNT Bolt sat antenna onto a steel beam on roof, or mount dish onto suitably-sized cement pad. Get local structural engineer.

CALL for Price
Option for galvanizing
Basestand-5.5" OD
Basestand-6.6" OD
Non-Penetrating roof Mount: Call

Basestand pipe mount

\$194 LNB-Zap-Stop, LIGHTNING SURGE SUPPRESSOR stop equipment damage. Can take multiple hits
